MENACE OF SECESSION IN MEXICO

Is Apparent in Northern States and Has Many Sympathizers

ANTI-AMERICAN FEELING

Apparent in Connection With Movement Believed by Many to Be Backed by Americans.

Mexico City, March 7. — Rafael Tapia, a prominent officer of the rural guards who took the field against Huerta after the death of Madero, surrendered to the government authorities today. The surrender took place at Guadalupe, Hidalgo, where the treaty of peace between Mexico and the United States was concluded in 1848.

Mexico City, March 7. — While there is no apparent diminution in the confidence of the government to eventually force pacification of the country, it is quite evident that the task is much greater than was at first believed.

This is shown by the disquieting news from the northern states, not so much on account of the rebellions in Sonora and Coahuila as from what lies behind them. The menace of secession of the north is not a new idea, but has been considered by Sorona, Chihuahua and Coahuila for years and has many sympathizers particularly among the foreign settlers and the mine and ranch owners, who have seen eventual absorption by the United States.

That Huerta and his advisers are keenly alive to this menace there can be no doubt, and the utmost strength of the army will be used to nip the scheme in the bud.

An under current of anti-American feeling is apparent in connection with this, as many believe that the scheme is engineered and backed by Americans. There is much anti-American feeling on the West Coast, the ambassadors receiving and forwarding to Washington many threatening letters that have been received by Americans living there.

The general feeling among the middle and upper classes is that Huerta does not inspire sufficient confidence, they believing the provisional government to be full of intrigues to delay the presidential elections and so keep out Diaz. They also believe that Diaz would make a good, honest and energetic president.

People also say that Huerta was not inspired by patriotism in his overthrow of Madero, but, realizing that he could not take the Caudilla, and fearing ridicule and disgrace, he saw a chance to satisfy his long-cherished ambition to become president and he will retain the position as long as possible.

Mexicans of the better class express worry over the silence of Woodrow Wilson on Mexican affairs, believing him to be suspicious of the ability of this government to establish peace, and fearing that he will not adhere to Taft's policy, but will take a much firmer attitude toward the republic. They say that his silence is ominous, as otherwise he would have made a statement to calm their apprehensions.

The Mexican press deplores the change, saying Mexico lost its best friend when President Taft stepped out, and they can only hope that President Wilson will follow his example, but doubt it.

Francisco De la Barra, minister of foreign relations, accepted last night the candidacy for vice president on the ticket with General Felix Diaz. His decision not to be a presidential candidate is regarded as significant.

In accepting the nomination Senor De la Barra declared that he favored abolishing the office of vice president. He said that the history of the past few years showed that this office was responsible for much of the trouble in the country.

President Huerta, after conferring with the war minister, General Mondragon, last night decided to give Venustiano Carranza, the rebel governor of Coahuila, 48 hours from the time of receipt of the notification, to surrender. If he fails the campaign against him would begin in earnest.

Luis De la Barra has been appointed the financial agent of Mexico in London.

Just as everything seemed about arranged in the south for the bloodless submission of all rebels, including the Zapatistas, come reports that Tuerio Morales, who submitted when Huerta placated him yesterday by the present of a fine hacienda, has lost control of his men and that they have gone against the

government, enrolling with Zapata and his forces.

Ten thousand seasoned troops are to be placed under command of Brigadier General Samuel Garcia Cuellar, former chief of President Porfirio Diaz's staff and hero of the battle of Casas Grandes early in the Madero revolution, who has been ordered to move against the rebels in the north at an early date.

Two thousand men in addition to those already dispatched are preparing to proceed to Coahuila, to give combat to the rebels under Venustiano Carranza, the rebel governor. According to the latest information reaching the government, Carranza now has 3000 men and six cannons. His forces are spread over a large extent of territory from Lampazos throughout the eastern half of Coahuila.

A portion of his forces have taken possession of LaRabia ranch, the property of General Trevino, now governor of the state of Nuevo Leon. The government is moving troops into Monclova and Mesquite, where the main body of the Carranzistas is said to be.

Francisco Guzman, secretary of the revolutionary junta, has succeeded in getting Porfirio Bonilla, rebel leader of the state of Tlaxcala, and 650 of his followers to submit to the Huerta government.

Among the other rebel chiefs who submitted today to the provisional government are Montelongo with 300 men, Guerra with 200 men, both from the state of Tlaxcala; Paniagua and Luna from the state of Hidalgo, with 200; Del Pozo and Ambrosio Erics from the state of Puebla with 200; Caddillo and his 1100 men from the state of San Luis Potosi and Emilio Llamas from the state of Tamaulipas with 150 men.

Emiliano Zapata, rebel leader in the south, still is holding back, apparently afraid to enter the capital. General Diaz announced last evening that Zapata is expected in the city today and will surely be here within two or three days.

Diaz is disappointed over the failure of the rebel chief to keep his promise to come here and confer with the Huerta government, and says he believes Zapata is being influenced at the last minute by his secretary, Rontano, who, it is said, wields a powerful influence over the rebel leader.

A force of rebels, commanded by Alberto Guejardo, a commander of rural guards, who revolted against the Huerta administration in the state of Coahuila, was routed with heavy losses by federal troops today near Perras.

The rebels attacked a repair train which was proceeding from Torreon to Saltillo, the capital, under the escort of a strong body of troops. The federal troops were detained and routed the rebels after a sharp fight.

General Orozco today submitted his terms for a settlement with the Huerta national government.

Repeating his demands that the land grant promises of the first revolution be carried out at once, Orozco also asked that the northern rebels be given employment as rural police, that 50,000 pesos be given as back pay for his troops since they ended police service under Madero's government, that widows and orphans be pensioned and that the government pay loans secured by the rebels for food and clothes supplied during the anti-Madero revolution.

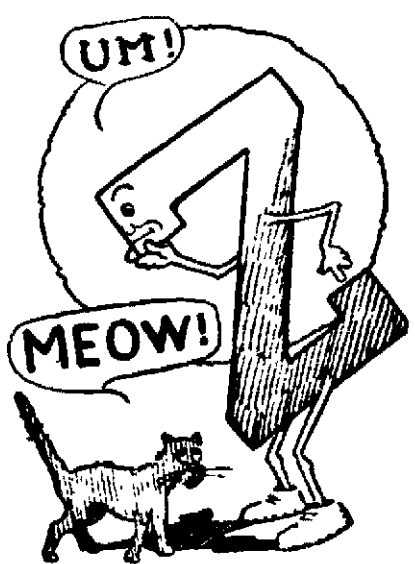

MOTHER JONES IS PLACED ON TRIAL

Charleston, W. Va., March 7.—Mother Jones, the labor leader, and fifty other persons charged with conspiracy in connection with the rioting in the Paint Creek section of the Kanawha coal field were placed on trial at Paint Creek Junction. Another charge is that they were concerned in the killing of Fred O. Babbitt, a book-keeper, shot dead in the fighting at Mucklow. Two scores or more witnesses have been summoned on each side and the trial is expected to last several days. Judge Littlepage of the state supreme court of appeals last night on application of Mother Jones' counsel issued a writ of prohibition. This was disregarded today by the commission.

PRES. WILSON AT HIS DESK EARLY TODAY

Washington, March 7.—President Wilson arrived at his executive offices shortly after 9 o'clock today, attacked his correspondence and conferred with several Democratic leaders of congress. He was to meet Charles E. Murphy, Tammany leader, later in the day.

It was announced that the President will hold cabinet meetings on Tuesdays and Fridays as heretofore.

Chairman Fitzgerald of the House appropriations committee conferred with the President and after the conference Fitzgerald said that no decision had been reached as to whether the house should not appoint an appropriation committee to draft a sundry appropriation bill to take the place of the one vetoed by Mr. Taft. This bill may be introduced at the special session.

GROSS IMMORALITY CHARGE AGAINST CHIEF KOHLER

Cleveland, O., March 7.—Amended charges detailing the allegations under which Chief of Police Fred Kohler is to be tried for "gross immorality" by the civil service commission, were made public when Kohler was arraigned before the commission today. The official documents claim that on three separate occasions Kohler surreptitiously visited the home of Samuel D. Sherer, at 2606 Daisy avenue, and stayed for hours with Mrs. Daisy Sherer while her husband was absent. Chief Kohler pleaded not guilty, and the taking of testimony was set for next Monday.

JURY'S VERDICT IS SCORED BY TRIAL JUDGE

Drunken Chauffeur Who Ran Down Woman Acquitted in New York City.

New York, March 7.—"You may go home, get another taxicab, go out and kill somebody else," Judge Foster of general session court told Leon Gerard, a taxicab driver, acquitted of murder.

"The jury has given you permission to do so."

"Gentlemen," continued the court, addressing the jury, which has just given its verdict, "you seem to think that a drunken chauffeur can run recklessly with his machine through the streets and go unpunished. At least that is what you say by your verdict. But in this case your state of mind, in order to reach that verdict, can best be described as the peace of heaven that passeth all understanding."

Gerard was indicted for the murder of Mrs. Walter Dührig, a cousin of District Attorney Whitman, whom he ran down last April.

ALLEN MUST DIE MARCH 28

Governor, After Granting Respite of Three Weeks, Refuses to Commute Sentence.

Richmond, Va., March 7.—Floyd Allen, leader of the outlaw band in Carroll county, and his son, Claude Swanson Allen, will be executed in the state penitentiary on March 28, for their part in the Hillsville court murder, on March 14, 1912. Governor Mann last night, having refused to commute the sentence to life imprisonment. The prisoners were to have died today, but the governor granted a respite of three weeks.

SUFFRAGET IS SENTENCED TO PRISON TERM

London, March 7.—Miss "Joyce Locke," a militant suffraget, whose real name is Olive W. Harry, was sentenced today to 18 months' imprisonment. She was found guilty of setting fire to a pavilion in the Kew Botanical Gardens Feb. 29. The court ordered her to pay all costs and deposit \$1,000 to insure her good behavior for two years, after completion of her sentence.

LICENSE BILL IS PASSED

In Senate This Afternoon by a Vote of 28 to 4

AMENDMENT IS KILLED

Which Prohibited Breweries from Peddling Products in Residence Districts—Work of Ohio Legislators.

LEGISLATIVE SUMMARY.

Drys offer two amendments to liquor license bill; one adopted and other killed in senate.

House committee amends eight-hour bill to nine-hour measure, differing only slightly from present measure.

Bigelow bill, abolishing right of property owners to head off street car lines in front of homes, advanced for passage in the house.

Senate adopts resolution providing for constitutional amendment for short ballot in state, county and township.

House passes bill keeping Xenia orphanage under present trustees, but compelling purchases from state administration board.

House favorable to lien law protecting material men and sub-contractors.

Administration introduces stringent bank inspection measure covering all banks except national ones, putting an end to certain practices of state bank department attaches and restricting loans.

Columbus, March 7.—The Greenlund liquor license bill amended in several details passed the senate this afternoon by a vote of 28 to 4. Those voting against the bill were Beaman, of Galia county, Gallagher of Madison, Howard of Belmont, and McDermott of Trumbull.

The amendments passed yesterday preventing breweries from peddling their products in residence districts, was reconsidered today and killed.

After being rushed through the senate yesterday by an almost unanimous vote, Governor Cox's short ballot measure was killed in the lower house when it was laid upon the table by a vote of 59 to 37 today.

Columbus, O., March 7.—Voting in opposition to the expressed wishes of Governor Cox, a small majority of the members of the senate were successful in securing several material changes in the Greenlund liquor license bill today.

The salary of a state license official was cut from \$6000 to \$5000 a year, and the maximum pay which a member of the county board may receive was fixed at \$5500 instead of \$6000, as proposed in the original bill. Senator Hudson of Scioto county offered these amendments, which carried by the close vote of 17 to 18.

Hudson's amendment to decrease registration fees which saloon keepers must pay from \$100 to \$75, lost by a vote of 24 to 9. His proposed change to make the initiative petition for election on the proposition of letting further the number of saloons in a municipality 40 per cent instead of 25 per cent, was voted down, 29 to 4.

Victory and defeat perched on the banners of both the wet and dry forces yesterday at the close of the first battle in the senate on the Greenlund liquor license bill. Honors were even.

The vote secured the defeat of (Continued on Page 2, Col. 3.)

The latter would like to be sent to Vienna or Rome.

MAYOR NAMES DELEGATES TO ROAD MEETING

Mayor F. M. Swartz Thursday afternoon named eleven delegates from Newark to attend the Rural, Life and Good Roads Congress which will meet at Memorial Hall in Columbus, March 12 and 13. The proclamation for the congress was issued by Governor Cox. The Newark men named as delegates are: George D. Orr, Dr. P. H. Cosner, Henry O. Norris, Charles D. Lake, M. J. Reese, Murray Alsop, Ralph L. Davis, James A. McGonagle, J. D. Keeley, Bernard F. Kent, and Fred C. Evans. Notices of their appointment as delegates were mailed to these men Thursday afternoon.

MUTINOUS ARABS SHOT BY TURKS

Constantinople, March 7.—Fifty mutinous Arab soldiers belonging to Turkish regiments guarding the peninsula of Gallipoli and the Dardanelles, were shot today as an example to the others. Most of the men guarding the lines were brought from the warm climate of Asia Minor and they declare they cannot stand the extreme cold.

FIFTY KILLED IN EXPLOSION OF DYNAMITE

Baltimore, Md., March 7.—Three hundred and forty-four tons of dynamite exploded this morning in lower Baltimore Harbor, killing about fifty men and wounding as many more of them fatally. Six of the crew of the tug Atlantic lying along side the Alum Chine were killed and the tug practically destroyed.

The tremendous explosion shook the country for miles around. Windows were broken and chimneys knocked off houses, a dozen or more miles from the scene of the disaster.

At Sparrows Point, a school house was partially destroyed and several children hurt. Baltimore was shaken as if by an earthquake and tall buildings were rocked by the shock.

Scores of vessels hurried to the scene of disaster to render what aid they could. Floating bodies were drawn from the wreckage and some of the injured were rescued from floating debris.

Thirty or more badly injured men were brought to Baltimore hospital. The Alum Chine has been here since March 1 and finishing the loading of a cargo of high explosives for the Panama Canal.

This morning a lighter with four railroad cars were towed to the side of the vessel and the work of completing the task of loading was expected in a few hours. Suddenly a puff of smoke came from the hold of the ship. Right alongside of the Alum Chine was the launch Jerome, manned by ship Chandler James B. Goodhughes. Into his boat leaped fourteen of the British boat's crew and Goodhughes turned the bow of his little craft away from the burning ship and put off at top speed.

The first puff of smoke was followed by clouds of greater volume. When the fleeing launch was 200 feet from the Alum Chine the explosion came. There was a deafening roar as hundreds of tons of explosives went off. Columns of flames shot out from every portion of the vessel and the air was filled with flying debris.

Pieces of machinery and portions of the hold of the boat weighing tons were shot hundreds of feet in the air. Pitiful scenes were enacted on the Broadway wharf when the tugs bearing dead and injured arrived there.

Hundreds of women and children whose husbands and fathers worked on the water crying and ringing their hands begged to be allowed to see if any of their men folks were among the victims.

STRIKERS STONE THE TAXICABS OF A RUBBER PLANT

Cleveland, O., March 7.—The first physical violence of the strike of rubber workers here took place this morning. Strikers picketing the plant of the Mechanical Rubber company hurled ice and stones at 25 taxicabs containing employees who have refused to strike. No one was seriously hurt.

The strikers wage scale committee began drawing a schedule of demands today. It is expected to ask for a minimum wage of \$1.25 a day for girls and \$2.25 for men. An eight hour work day, time and a half for overtime and double time Sundays and holidays.

COX PARDONS MRS. DWORCKIN

Columbus, O., March 7.—Rose Dworckin, of Cuyahoga county, serving five years for the murder of her betrayer, who threatened to expose her to her husband, was pardoned by Governor Cox today. She was received at the penitentiary last March.

TEST IS GIVEN TO PATIENTS

Dr. Friedmann Administers Serum to Three Patients

40 PHYSICIANS PRESENT

Many Openly Denounce the Treatment of German Bacteriologist—Will Have a Fair Test.

New York, March 7.—Dr. Friedrich F. Friedmann, the German bacteriologist, who claims that he has a serum that will aid in the cure of tuberculosis, administered his treatment to patients for the first time in the United States yesterday, the forty physicians who witnessed the injections being at wide variance as to the value of the new discovery.

Four drops of the serum, which is obtained from a marine turtle, were injected into the muscles and veins of three patients.

The demonstration was given by Dr. Friedmann at the People's hospital before a clinic of forty prominent physicians. A number of doctors who attended the clinic expressed strong disapproval of Dr. Friedmann's methods of handling the patients.

Others denounced him for selecting only patients who were apparently only in the mildest stages of the disease or were well on the road to recovery, while others felt that judgment should be withheld to await permanent results.

Dr. Friedmann removed the ban which was put up to him Wednesday by sending a tube of his cultures to Health Commissioner Lederle for examination.

The health commissioner then announced that a demonstration of the serum might be made by the Berlin doctor in any hospital which was not under the supervision of the board of health.

Three patients—two men and one woman—were selected by Dr. Friedmann from fifty tuberculosis sufferers gathered from all parts of the city, all hoping they would receive treatment. The woman has been ill three years. Hers is a chronic case of the disease at the knee and was the most serious of the three chosen.

The two men have tuberculosis of the lungs. Their cases are not beyond the incipient stage, according to the authorities of the People's hospital, the institution where the demonstration was held.

Each of the men patients has been showing improvement and gaining weight since beginning several months ago the best recognized tuberculosis treatment of the day, it was stated.

Physicians who were present brought forward a dozen persons suffering with the disease in all its stages.

The medical history of each was available for Dr. Friedmann's use. Statistics had been prepared at his request. The Berlin physician declined to treat any of these cases, however, but made his own selections.

Dr. Broder openly denounced Dr. Friedmann, claiming that the records (Continued on page 12, col. 4.)

PROBE WAGES PAID GIRLS IN CHICAGO

Chicago, March 7.—Leading merchants of the vice investigating committee today in an effort to ascertain what connection there is between low wages paid to women and their entering lives of vice. It is asserted by Lieutenant Governor Barron O'Hara that in Chicago alone 50,000 women are employed at a wage of \$5.00 a week or less and that many of them for that reason enter evil paths that lead to more money.

MRS. HARRIMAN GIVES A HOME FOR CLERGYMEN

Rochester, N. Y., March 7.—The Sober Home of the late Edward B. Harriman has been decided by Mrs. Mary A. Harriman to be Rev. William D. Walker, pastor of the Episcopal church of western New York, for the use of clergymen in need of rest.

Mrs. Harriman recently gave to the town of Solus land for a park that now bears her name. It was at Solus Point that Mr. Harriman began his career in railroading and he lived there for many years.

"FAGGED-OUT" WOMEN
Will Find a Helpful Suggestion in This Letter.

Overworked, run down "fagged out" women who feel as though they could hardly drag about, should profit by Miss Richter's experience. She says: "Last winter I was completely run down and felt fagged out all the time. I was nervous and had indigestion."

One of my friends advised me to take Vinol. It has done me great good. The tired, worn-out feeling is all gone and I am strong, vigorous and well. I can stretch to my work and now I eat heartily and am perfectly rested. I wish every fagged-out woman would have Vinol. For I never spent a penny in my life that did me so much good as that I spent for Vinol."

Miss Richter, Detroit, Mich.

The sense of women and men who were formerly weak and sickly, as the present rugged health to the women, I strongly recommend the use of Vinol. We guarantee Vinol to build you up and make you strong. If it does not we give back your money.

P.S. For rough, scaly skin, try our Saxe Salve. We guarantee it.

Case in Supreme Court.
A case involving a fine point of law is being argued orally this afternoon in the Supreme court of Ohio at Columbus. The case is Edward Kibler, guardian of Edward S. Hand vs. Charles Hand. The case was one of partition of the Hand farm between Newark and Hebron and Mrs. Hand claims she is entitled to have the value of her contingent dower paid to her out of the proceeds coming to Edward S. Hand from the partition sale. The question is whether the divorced wife of a part owner of real estate sold at partition sale must be made a party defendant in the partition proceedings, so that she may claim her dower right, which continues to exist to the former wife when the divorce is granted on account of the aggressions of the husband. In the Probate and Common Pleas court, Mrs. Hand lost the case, but the Circuit Court found in her favor, and the case was then taken to the Supreme court by the guardian.

Edward Kibler, Sr. of Kibler & Kibler, argued for the guardian, and J. A. Flory of Flory & Flory, for the defendant in the Supreme court.

LEGISLATURE
(Continued from Page One.)

an amendment to prohibit saloons within 300 feet of a school house. The drys had an amendment passed prohibiting brewers from conducting a wagon retail business in residence districts. The vote on the latter was 17 to 16.

Both the amendments were proposed as a part of the program of the Anti-Saloon League. More will follow today. Dry laws of both the sub-committee and the joint committee had fought for the amendments before the bill was presented in the senate, but they were unsuccessful.

After Senator Hudson dumped a number of amendments cutting the salaries of license commissioners, reducing the license fee, raising the percentage necessary to call a referendum vote on further limitations to the number of saloons in a municipality and others, a recess was taken until 9 o'clock Friday morning.

The hottest fight yesterday was waged on the amendment to prevent saloons from locating within 300 feet of a public or parochial school. The amendment was offered by Senator C. J. Howard of Richmond, Republican floor leader, and though it was supported by the majority leader, Senator Wm. Green of Coshocton, it lost by a vote of 12 to 21. Those voting for the amendment were Senators Benham, Broadstone, Cunningham, Gallahue, Green, Howard, Kiser, Lloyd, McDermott, Moore, Weiser and Weygant.

Senator Howard declared the amendment voted the sentiment not only of educators, the public and all right-thinking people, but probably a majority of the wet element as well. He asked for its passage on moral grounds and in behalf of the children. Senator Green approved the expressions of the Republican leader. Both had abandoned the probe of the Akron labor troubles to be present yesterday.

Besides the author of the measure, Senators Hillenkamp, Seward and Hollison, opposed the amendment. They argued that public sentiment would soon put a saloon away from the vicinity of a school house, if it was deemed a menace. They also placed reliance in the license board to control this phase of the problem. Senator Seward declared a saloon close to the school is not as dangerous to the morals of the children as one farther away. Senator Hillenkamp thought a saloon close to the school might be a good thing, as it would be held up as a temptation which the child should be taught to overcome in building character. "Without temptation, you cannot build character," declared the Toledo solon.

"Lead us not into temptation," Senator Howard quoted, in answering Senator Hillenkamp.

Senator Greenlund, in making his initial argument for the measure, said Governor Cox had approved it section by section and as a whole. In defending the appointment of county licensing commissioners by the state commission, he said the governor would be responsible for the action of all boards in the long run, since he would appoint the state board.

"We will have state-wide prohibition if the officers entrusted with execution of the provisions of this law are derelict and do not do their duty," declared Senator Greenlund.

The amendments offered by Senator Hudson, which will be voted upon this morning, cut the salary of state licensing commissioners from \$2,000 to \$5,000 a year, make the expenses of the state board, as well as the removal of its employees, subject to the approval of the governor; reduces the maximum salary of county licensing commissioners from \$5,000 to \$3,500; declares sales of more than one gallon determine a retail trade and not less than one gallon a wholesale trade; raise from 25 per cent to 40 per cent the number of signatures necessary to call an election to vote on further reductions of saloons per number of inhabitants; cut the license fee from \$100 to \$75; require all money received by the state board to be paid into the state treasury and all disbursements to be made through the state auditor.

Anti-Saloon League workers last night were much disappointed over the defeat of the amendment to limit the distance at which a saloon may be located from a school.

Most rodents are provident creatures and store a supply of food for winter use. The Egyptian jerboa, which is as thrifty as the rest of its race, but it is singular in this—that it stores up not food, but water. The jerboa is found most generally in arid regions, in which the dry season lasts six months, during which time not even a drop of dew falls. In these places, however, there grows, just at the close of the rainy season, a lily-like extremely juicy melon. As soon as it is ripe the jerboa gnaws through its stem, digs away the earth beneath it and lets it drop into the hole thus formed. The wind soon covers it with sand, which not only conceals it, but also protects it from the heat. On the coming of the drought the jerboa seeks out one after another of these natural water barrels and slakes its thirst at them until the rainy season sets in once more. As the jerboa lays up a supply of from forty to fifty melons, there is no danger of its store of water running short.

THE U. S. LEAGUE WILL TRY AGAIN

New York, March 7.—The United States League of Baseball clubs was reorganized here last night with eight clubs in the circuit. William A. Whitman, owner of the Reading, Pa. franchise, was elected president. The cities in the league were New York, Newark, N. J., Brooklyn, Philadelphia, Baltimore, Washington, Erie, Pa., and Reading, Pa. The season, it is announced, will start May 19 and close September 16. The schedule, which will be announced in about ten days, will consist of 120 games. The United States League was organized last year but only played a part of its schedule. It is not protected by the rules of organized baseball.

Today in Pugilistic Annals.

1890—Brooklyn Jimmy Carroll defeated Jimmy Murphy, Irish middleweight, in 9 rounds at New York.

1905—Jack (Twin) Sullivan and Tommy Burns fought 20-round draw at Spokane, Wash.

1908—Digger Stanley defeated Drifter Himpfen in 6 rounds at London.

1909—Jack (Twin) Sullivan and Jim Stewart fought 10-round draw at Brooklyn.

1912—Jack Dillon outpointed Walter Coffey in 10 rounds at Oakland, Cal.

MR. KOCHENDORFER RETIRES FROM THE GERMAN EXPRESS

After sixty years active life in Newark, during which period he served as school teacher and newspaper editor, Mr. Fred Kochendorfer, veteran editor of the German Express, retired from the business and will now enjoy a well earned rest.

Mr. Kochendorfer disposed of his interests in the Express to his business partner, Julius Juch, with whom he has been associated since 1895. Mr. Juch will continue the publication of the paper in the present location. It is the only German publication in the county.

Mr. Kochendorfer came to Newark in 1852 and for years was a school teacher. In 1882 he started a German paper here. Later he took up the publication of an English paper. When Mr. Juch came to Newark the two entered into a partnership for the publication of the Express.

Mr. Kochendorfer is past 82 years old and before his retirement was one of the oldest active newspaper editors in the state, in point of years. He announced in this week's edition of the Express that he had retired, but as the announcement was made in German, it was overlooked by all but the German readers.

Mr. Kochendorfer resides with his daughters, Mrs. Mary K. Baggs and Miss Fannie Kochendorfer, 246 West Locust street.

HAVE YOU GOT COLD FEET?

BEGY'S MUSTARINE Will Keep Them Warm All Winter.

No more cold feet for you—just rub on BEGY'S MUSTARINE tonight and your feet will be nice and warm for a week, no matter how cold the weather. Thousands use it to banish sore throat, coughs, chest colds, stiff neck and earache overnight.

A 25 cent box of BEGY'S MUSTARINE is better than 50 mustard plasters, better than liniments, poultices or hot water bottles. Just rub it on, that's all, and away goes soreness, lameness, sprains, cramps in legs, lame back and agony from Neuritis and swollen or stiff rheumatic joints.

It won't blister, it won't soil, but it will draw all agony from sore, burning feet and aching corns, bunions, and callouses. It's fine for chilblains and frosted feet, and remember, whatever it does, it does quickly. Druggists America over 25 cents. Be sure it's BEGY'S MUSTARINE, in yellow box.

T. J. Evans guarantees it. Mail orders filled by J. A. Begy, chemist, Rochester, N. Y.

SAYS GRAY HAIR VANISHES AFTER APPLYING SAGE TEA

A Mixture of Sage and Sulphur Prevents Dandruff and Falling Hair.

When youarken your hair with Sulphur no one can do so naturally. It is also splendid to remove dandruff and itching scalp hair. Preparing home is a task. For you can buy ready-to-use Sage and Sulphur. Some druggists themselves make it too sticky,

so insist you want "Wyeth's" then there will be no disappointment. You just dampen a sponge or soft brush with "Wyeth's Sage and Sulphur" and draw it through your hair taking one small strand at a time. Do this at night and by morning all gray hair disappears and after another application or two becomes beautifully darkened and more glossy and luxuriant than ever. You will also discover dandruff is gone and hair has stopped falling. Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur and you'll look years younger. Inquiry shows all pharmacists in town here sell lots of it. Hall's Drug Store, North Side Square, Agent.

Fashion Talk—"The Bulgarian Effects"

The world's events place their imprint almost immediately on the fashions of the day. The war in the East has brought the Bulgarian effects to the fore and the vivid colorings of the costumes of the natives of the far East are greatly in evidence in trimmings for this spring. Bedford cords and corgies are the favored materials for both Coats and Suits. The Mistral Coat is something new and has quite a dressy look. The Bulgarian colorings in the trimmings adds a touch that is most effective.

No former President of the United States surrounded himself with a Cabinet so thoroughly in accord with his own sentiments and in which every member so fittingly becomes his responsibilities and possesses the special qualifications for his duties.

That the Greeks are brilliant soldiers is as evident today as it was in the days of their country's ancient glory when Alexander conquered Asia. In the wonderful assault on the Turkish fortress at Janina, every Greek soldier was a general.

THE EXAMPLE OF OHIO'S GOVERNOR.

If Democrats ever had an incentive to go to Washington it was last Tuesday. The first president that party elected in sixteen years was inaugurated. The glittering displays, the dazzling military pomp, the crowds, illuminations and solemn and momentous ceremonies, all combine to make the inauguration of a president the pre-eminent day in the life of the nation.

But in Ohio, the state administration set a lofty example. Governor Cox remained on the job, and both houses of the general assembly were in session. The day was devoted by these men to the task of performing the duties the people sent them to Columbus to do. No slight was intended to the new federal administration. The people's business was placed before pleasure. And so it has been with Governor Cox ever since he took office. Everything has been subordinated to the task of getting into the statute books, the legislation he promised the people when he was a candidate.

The State Executive is showing an appreciation of the responsibilities of his high office that is most pleasing. It will be an inspiration for the governors that are to come.

No one need to fear that Governor Cox is going to cripple the Ohio National Guard. The State Executive made plain his position in the following communication which he addressed recently to a civic organization which asked him to use his influence in securing an appropriation of the usual amount for that department: "From the nature of your letter, some one is endeavoring to arouse suspicion in the public mind that the O. N. G. is to be seriously crippled for ulterior purposes. Nothing could be further from the truth. The report of the probe into the O. N. G. as it appears from day to day in the daily papers ought to convince any intelligent man that there is serious need for reform in this very useful means of defense. I am doing what I can to put the guard on an efficient footing, but am certainly going to do all that lies within my power to prevent wasteful and useless expenditures of money for this or any other institution. Part of the trouble with the guard seems to be that it has become clogged with useless officers, who played politics more than they attended to business. In fact, the guard has been used politically for some years and my only intention is to make it a means of defense and not a political adjunct to any political party or body of men."

CHILDREN HATE CASTOR OIL, UGH
Delicious "Syrup of Figs" Best For Their Little Stomachs, Liver and Waste-Clogged Bowels.
Look back at your childhood days. Remember the physic that mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them.
With our children it's different. The day of harsh physic is over. We don't force the liver and 30 feet of bowels now; we coax them. We have no dreaded after effects. Mothers who cling to the old form of physic don't realize what they do. The children's revolt is well founded. Their little stomachs and tender bowels are injured by them.
If your child is fretful, peevish, half sick, stomach sour, breath feverish and its little system full of cold; has diarrhoea, sore throat, stomach ache; doesn't eat or rest well—remember—look at the tongue, if coated, give a teaspoonful of Syrup of Figs, then don't worry, because you surely will have a well-smiling child in a few hours.
Syrup of Figs being composed entirely of luscious figs, senna and aromatics simply cannot be harmful. It sweetens the stomach, makes the liver active and thoroughly cleanses the little one's waste clogged bowels. In a few hours all sour bile, undigested fermenting food and constipated waste matter gently moves on and out of the system without griping or nausea.
Directions for children of all ages also for grown-ups plainly printed on the package.
By all means get the genuine. Ask your druggist for the full name "Syrup of Figs and Elixir of Senna" prepared by the California Fig Syrup Co. Accept nothing else.

Paralysis.
In cancer surplus matter ingested accumulates in some tender part of the body. In paralysis the overpressure on the blood vessels causes a clot to form in the brain. If the clot is in the left lobe of the brain the right side of the body is paralyzed, and vice versa. The only rational cure for paralysis is a protracted fast, or, if the patient cannot bring himself to such a heroic remedy, a "fruit fast," to be followed by the adoption of a strictly moderate and well selected dietary. To the fast or restricted diet should be added treatments.

STAG BANQUET PROVED A VERY HAPPY AFFAIR

An enjoyable banquet was participated in by about one hundred of the leading business and professional men of the city Thursday evening in the banquet room above the Old Homestead in the Schaller block in West Main street.
It was purely a social affair the cause of business being left for the future. The occasion was a stag affair of the kind which good fellowship reigns supreme and every one present did his best to make every one else feel at home.
Prof. Mitchell's orchestra furnished music throughout the evening and its introductory number the banqueters marched around the tables resplendent with their shining silver and mirrored glassware and at a signal were seated by the roastermaster general, that worthy being the genial proprietor of the Sherwood Hotel Mr. Harry P. Scott. Known as one of the most eloquent, fluent and versatile after dinner speakers in the state. After Martinis had been served, at the suggestion of the Hon. James Fitzgibbon, ex-prosecuting attorney of Licking county, the guests were forced to listen to a song by one of the newspaper men present, who wishes to make announcement of the fact that he will not appear on the program of the Elk minstrel to be given in the near future. Several suggested that perhaps Mr. Fitzgibbon wished to

be repeated in the near future. Mr. Paul Pfeiffer of Cleveland was one of the invited guests and favored the banquet with several bass solos. He has an excellent voice and his rendition of a number of songs including several German selections, made a happy hit with everyone.
The feast was prepared under the supervision of Messrs. Charles and Edward Schaller and they were the recipients of many compliments for the excellence of the menu, cuisine and service.

NEWARK BOYS TO ORGANIZE GARDEN CLUB

The Y. M. C. A. is laying plans for the organization of a garden club by the school boys during their vacation. The plan is stated as follows:
The boys will organize themselves into a club known as the "Boy Garden Club" of Newark, Ohio. They will elect from their number a president, vice president, secretary and treasurer. A committee shall be appointed to provide for the sale of all products raised and the proceeds shall be deposited with the treasurer. A sufficient amount will be reserved from such sales to pay the salaries of the supervisors.

All boys who wish to become members of the club should sign up at the Y. M. C. A. on March 26th and pay a registration fee of 25 cents each. There will be a meeting at 8 o'clock on the 27th at the Y. M. C. A. building, 10 N. Side Square, for the purpose of planting the garden. The boys will be given one of the "Garden Plants" After planting season is over will be required to work a certain number of hours per week on a plot. Each boy is to supply himself with tools sufficient for the work.
The Newark Board of Trade through its directors will award \$100.00 to be used in buying the best garden plots and the best kept lawns. The division of the prize money will be made at the end of the season and be given upon the decision of a committee of business men. Every boy in the city should be interested in this movement to make our city more beautiful.

The despondent lover shouldn't lose heart. Let the successful lover lose his.

"get even" with a number present for fancied grievances of the past.
Colored waiters next served the plates heaped full of the good things of this world, together with many side dishes and relishes, and vegetables coming fresh from local hot houses.
Consumers Special Brew was next passed followed by Havana and then Tanninberry Scott took charge and for several hours there was a flow of ordinary interspersed with special "stunts" brought down the house.
Attorney Link Bessner was the first orator and he was at his best. His remarks were thorough, enjoyable and his pointed shafts of wit flew from one to the other.
Hon James Fitzgibbon was next introduced by the toastmaster as the handsomest member of the Licking county bar, the Patriotic Henry of Ohio, and the poorest player in the country. Mr. Fitzgibbon, who is well known for his extreme (?) modesty, accepted the compliments gracefully and for the next ten minutes displayed a fine command of the skill of a Cicero and the dexterity of a Cicero in his polished language and happy comparisons flow from his vocabulary. He seemed to be chaste and illimitable.
J. Howard Jones, Treasurer of Licking county, was the next speaker. Everyone knew that something good was coming and they were not disappointed. Prosecutor Jones has a fund of stories and reminiscences that is almost inexhaustible and he kept all convulsed with laughter while he repeated many anecdotes dealing with local flavor.

Captain William Charles Miller, introduced as the pride of Licking county, golf expert, golfer, revaricator and a good fellow in general, entertained all with stories of his prowess on the golf links and tales of boyhood association with the toastmaster which got him into many scrapes. The Captain's remarks were timely and thoroughly enjoyed.
Charles William Miller was next introduced as the Apollo of Licking county, but that gentleman disclaimed any claim to the title, modestly admitting others to judge whether he was entitled to the honor. Mr. Miller is an after dinner speaker has no peer and his flights of oratory held all in breathless suspense while with the dexterity of an expert he oscillated from one topic to another. His offering was rich, fertile and harmonious and will long be remembered by all fortunate in hearing it.
A program of special features followed participated in by many of the guests and a royal good time such as only a stag affair of the kind permitted was had by all. Indeed the banquet was pronounced by those present as being one of the best ever occurring in the city. It will undoubtedly be repeated in the near future.
Mr. Paul Pfeiffer of Cleveland was one of the invited guests and favored the banquet with several bass solos. He has an excellent voice and his rendition of a number of songs including several German selections, made a happy hit with everyone.
The feast was prepared under the supervision of Messrs. Charles and Edward Schaller and they were the recipients of many compliments for the excellence of the menu, cuisine and service.

THE HUMAN PROCESSION

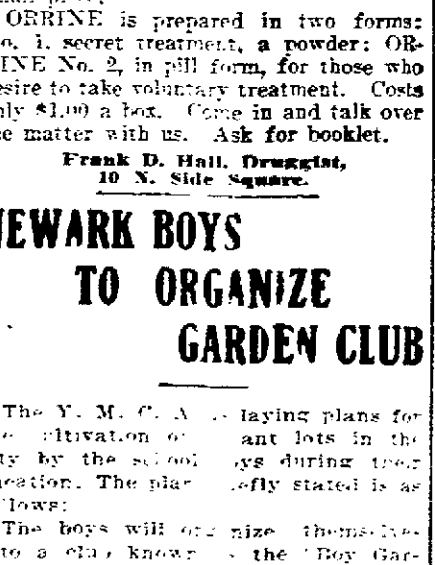

By O. Terrence
"BARON" NELSON, FAMOUS EDITOR, IS 72 TODAY.

A mighty man in American journalism is William Rockhill Nelson, founder, editor and proprietor of the Kansas City Star, one of the most influential newspapers of the West. The "Baron," as he is known from coast to coast, is getting along in years, and will reach his seventy-second milestone today, but he is not too old to keep things stirred up in the young metropolis at the mouth of the Kaw. Just now he has a day in jail coming to him, on conviction of contempt of court, unless the higher tribunals upset the sentence of the jurist who was rendered peevish by the Star's account of a divorce court case. Hizonner declared that Mr. Nelson had printed "a sneer at the Judge and a sneer at the courts in justified theroy tending to bring judicial procedure into disrepute."
"The law's delay" has been the topic of many Star editorials in the last year. It is likely that the question as to whether Mr. Nelson really sneered at the court, and, if so, whether he had a right to sneer, will be decided before 1927.
Mr. Nelson was born in Ft. Wayne, Ind., March 7, 1841, and was educated at Notre Dame University. Some thirty-three years ago he established a little one-horse newspaper called the Star in the little, one-horse town of Kansas City. Both paper and city have grown considerably since then, and the Star has become a power throughout the West. In all the lists of great American newspapers it occupies a place near the top. When the Star was founded the Times was the leading Kansas City paper, and the little rival was the subject of much ribald mirth on the part of the Times editors. Mr. Nelson laughed last, however, and the Times is now the tail of the Star's kite, and is issued as its morning edition.

That New York will pass London in population and become the world's largest city in May, 1914, was a prediction recently made by the Rev. Dr.

THE KICKER

I'd hate to be a kicker, and fuss around and beef; so many folks are sicker than those who deal in grief. I'd hate to be a-knocking, and have the kicker's name, and spend my lifetime blocking some fellows' useful game. In every town and city the kicker wields his jaw; it seems a frightful pity he's not suppressed by law, that people cannot rally around the croaking jake, and take him to an alley and burn him at the stake. The kicker is contagious, like every other bore; his arguments outrageous make other people sore; he's like a rotten apple that spoils the other fruit, and so we all should grapple with this condemned scoundrel. One kicker in a village, who kicks with might and main, is worse than pest or plague or suffragette campaign. One kicker in a hamlet will flood the place with woe, as when you see a dam let its muddy waters flow. And yet we only snicker or spring a feeble sneer when we behold the kicker do deadly damage here. We should at once endeavor that kicker to surround, and lock him up forever in the village pound.

THE HOME BUILDING ASSOCIATION COMPANY OF NEWARK, OHIO

WELL TO DO POVERTY

A strange expression, yet it truly describes the condition of those who have reasonably good incomes, but no ready money ahead.

When a day of misfortune overtakes them, they are far worse off than those usually called poor, for they are wholly unfamiliar with the usual expedients of poverty.

If you would count confidently on the future, the one sure plan is to have a savings account in the "Old Home" Building Association Company of Newark, earning four per cent interest, compounded semi-annually.

This Association has always paid every withdrawal immediately on request, and in our case, "always" covers a period of thirty-two years, which is a very strong guaranty for the future.

SLEEP DISTURBING BLADDER WEAKNESS BACKACHE-RHEUMATISM QUICKLY VANISH

Even Most Chronic Sufferers Find Relief After a Few Doses Are Taken.

Backache, urinary disorders, and rheumatism, are caused from weak, inactive kidneys, which fail to filter out the impurities and keep the blood pure, and the only way on earth to permanently and positively cure such troubles, is to remove the cause.
The new discovery, Croxone, cures such conditions because it reaches the very roots of the disease. It seeps right into the stopped up, inactive kidneys, through the walls and cleanses them, neutralizes and dissolves the poisonous uric acid substances that lodge in the joints and cause rheumatism; it neutralizes the urine so it no longer irritates the tender membranes of the bladder, and cleans out and strengthens the stopped up, lifeless kidneys so they filter and sift all the poisons from the blood, and drive it out of the system.
So sure, so positive, so quick and lasting, are the results obtained from the use of Croxone, that three doses a day for a few days are often all that is required to cure the worst case of backache, regulate the most annoying bladder disorders, and overcome the numerous other similar conditions.
It is the most wonderful preparation ever made for the purpose. It is entirely different from all other remedies. There is nothing else on earth to compare with it. It is so prepared that it is practically impossible to take it into the human system without results.
You can obtain an original package of Croxone at trifling cost from any lunatics to scratch and irritate and cause rheumatism; it neutralizes the urine so it no longer irritates the tender membranes of the bladder, and cleans out and strengthens the stopped up, lifeless kidneys so they filter and sift all the poisons from the blood, and drive it out of the system.

"The Witching Food" Has Just Come Out

For ten years we have waited to make this announcement—of bubbles puffed from corn.

It has taken ten years to learn how to produce them. Now the new food is ready.

It is the inner part of white corn—granulated, cooked and toasted—made into pellets and puffed.

The result is airy globules—thin and flaky—chocolate-colored, almond-flavored.

It is so insidious—so irresistible—that users call it "The Witching Food."

We call it Corn Puffs.

It will soon be the talk of the city. Please try it while it's new.

SOCIETY

Miss Sylvia Howard has issued invitations to the members of the Non-Like club to a masquerade at her home in South Pine street.

A beautiful cluster of red and white flowers adorned the luncheon table at the thimble party given by Miss Clara Scott, at her home in East Church street on Thursday afternoon. Miss Scott's entertainment honored Miss

Lillian Miller, fiancée of Mr. Clyde Irwin. The gifts were miscellaneous. A delicious luncheon was served the following: Miss Miller, Mrs. W. W. Gard, Mrs. Carl Dayton, Mrs. H. B. Anderson, Misses Lorena Miller, Edna Martin, Kathryn Suter, Alta Scott, Helen Redman, and Mary Louise Rank.

Miss Edna Martin will entertain with a skwer for Miss Lillian Miller on Monday afternoon at her home in West Church street.

Miss Florence Haegg entertained with a masquerade party on Thursday evening at Assembly Hall. Miss Haegg's guests were the members of

her dancing class and the event was rendered delightful by the clever costumes and the spirit of comradeship which prevailed. Marsh's orchestra furnished a very pleasing dancing program.

The Unity Reading Circle will be entertained at the home of Mrs. Lloyd Millisor, in 129 West Locust street on Saturday afternoon at 2:30 o'clock.

The T. M. P. met Tuesday evening with Miss Mary Hagan at the home of Mrs. Frank Mahard on Elmwood avenue. After the regular program the evening was delightfully spent in sewing and conversation.

At a late hour many refreshments were served to the members. The next meeting will be held at the home of Mrs. Marie Alexander on Elmwood avenue on March 19.

Mr. and Mrs. Kidd were surprised at their home in Madison township Thursday evening. Mr. and Mrs. Kidd were surprised at their home in Madison township Thursday evening. Mr. and Mrs. Kidd were surprised at their home in Madison township Thursday evening.

Those present: Misses Frances Hayes, Margie Harrison, Gertrude Wheeler, Edith Bowser, Hazel Holmes, Jessie Tanner, Storch, Minnie Fleming, Misses George Smalley, Willie Fred Bodie, Harry Walker, Harry Mastong, Ross Applegate, Earl Glenn Wilson, Bushnell McClellan, Carver Moore, Carl Nell Jones, and

The members of the B. B. B. club were delighted to be entertained at the home of Miss Grace Varner in Pine street on Thursday evening. The time of the members is given over to embroidery work and following this a delicious luncheon of several courses was served. The members of the club were Mrs. Harry Sheehy, Mrs. Carrie Varner and Miss Charles Bope.

Mrs. Chas. Jenkins entertained at her home in Granville, Thursday evening, with a five course dinner, honoring her guest, Mrs. Jennie Tracy Brown. Those present were: Misses Alice Warner, Elsie North, Rosetta Evans, Gladys Thompson, Mrs. Brown and the hostess.

The Woman's Missionary society of the United Brethren churches of this city held their annual meeting at the home of Mrs. Rena Gamble, No. 20 Madison avenue, Thursday afternoon at 2 o'clock, preparatory to the branch convention of the Southeast Ohio Conference to be held at Westerville, Ohio, April 9, 10 and 11. A large number of members and visitors were present. Much business was transacted and many new plans laid for the extension of God's Kingdom the coming year. The following officers were elected:

President—Mrs. Viola Shannon. Vice president—Mrs. Rena Gamble. Secretary—Mrs. Tillie Shaw. Assistant secretary—Miss Jennie Martin.

Treasurer—Mrs. Addie Warman. Secretary of literature—Mrs. Susie Johnson.

Librarian—Mrs. Ella Church. Collectors—Mrs. Belle Muhlman, Mrs. Daisy Courson.

Organist—Mrs. L. A. Gault. Delegates—Mrs. Viola Shannon, Miss Pennie Martin, Miss Lizzie Shannon.

Mrs. L. A. Gault and Mrs. Anna Tomlinson were elected chairman of the program and flower committee and asked to choose the other two on each committee.

At the close of the meeting elegant refreshments were served. The next regular monthly meeting will be held at the home of Mrs. Shannon, 57 Tenth street, the first Thursday in April.

Lots of people could help more by not saying so much.

An English Billion.

In England a billion is a million times a million. This is quickly written and quicker still pronounced, but no man is able to count it. You will count 160 or 170 a minute, but let us suppose that you go up as high as 200 a minute, hour after hour. At that rate you would count 12,000 an hour, 288,000 a day or 105,120,000 in a year. Let us suppose now that Adam, at the beginning of his existence, had begun to count, had continued to do so and was counting still. Had such a thing been possible he would not yet have finished the task of counting a billion. To count a billion would require a person to count 200 a minute for a period of 9,512 years 542 days 5 hours 20 minutes, provided that he should count continuously. But suppose we allow the counter twelve hours daily for rest, eating and sleeping. Then he would need 18,025 years 819 days 10 hours 45 minutes to which to complete the task.

SNAPSHOTS BY BARBARA BOYD

Their Two Differing Viewpoints

SHE sat in her hostess' kitchen, bolt upright on a hard, kitchen chair, her face expressive of dissatisfaction of the place in which she found herself, and of disapproval of her hostess' conduct.

Her hostess bustled about trying to seem glad at her visitor's presence, but nevertheless, grimly continuing her work.

For it was four o'clock in the afternoon, and the caller had expected of course, to be received in the parlor and be served up with a nice little dish of gossip.

But her hostess being still in the throes of a frenzy that had seized her that day, to give her house a thorough overhauling, was not going to stop in the midst of her labors to entertain company.

And so it looked as if strained relations might result from the encounter.

For the caller was one of those women who never washed windows at four o'clock in the afternoon, and so thought it perfectly scandalous for anyone else to do it.

And her hostess was one of those women who didn't keep house by formula, but according to her own sweet fancy. She didn't wash windows on Thursday, because Thursday was the day for washing windows. But she washed them when they were dirty. Had she felt like washing them on Sunday she probably would have done it, to the unbounded horror of her respectable neighborhood.

And so being liberal in her ideas, she could see no harm in asking her caller into her kitchen, while she washed her kitchen windows.

But from the expression on the caller's face, it was easy to see a storm was brewing. She was not liberal-minded. She believed in a time and a place for everything, and everything in its time and place. Four o'clock in the afternoon was no time to wash windows, and the kitchen no place to receive callers. And her face said very plainly:

"When I call on her again, she will know it."

And so because there's lack of understanding of each other's viewpoints, or perhaps, because each thinks her viewpoint right, and that there can be no other, these two good neighbors may become slightly cool toward each other.

One, in fact, may go a little farther, and say unkind things. For the face of the one who sat upon the kitchen chair, was not that of a woman who would be charitable toward the housekeeper who washed windows at four o'clock in the afternoon.

AMUSEMENTS

To Auditorium Patrons: Newark lovers of good plays will find in David Belasco's "The Woman," which appears at the Auditorium tonight, one of the best dramas that has ever been seen in this city. I can positively guarantee it to be the same company and production that appeared at the Olympic theatre, Chicago, for six months. I sincerely trust that our play-goers will take advantage of seeing this performance, for I know they will regret it if they do not. F. E. JOHNSON, Manager Auditorium.

"The Woman" Tonight.

The attraction at the Auditorium tonight will be "The Woman," written by William C. DeMille and produced by the great master of stagecraft, David Belasco. No play that has been seen out in recent years bearing the Belasco trademark has been received with more popular enthusiasm than has "The Woman," as is attested by the fact that during last season it was played for nine months at the Republic theatre, in New York, and five months at the Olympic theatre, Chicago. In the half dozen other cities in which it has been seen it has received an equally enthusiastic welcome. The play is particularly timely, for it deals broadly with a certain phase of politics in the national capital, a subject of special interest in these piping political times. Politics forms a background for the main story, which deals with a much discussed question of modern social life, and with the intense loyalty of a good woman for her erring sister. It is a typically American story and it is handled in a typically American manner. Mr. DeMille's methods are concise and sympathetic and his humor, with which the play is bubbling over, is contagious. Mr. Belasco, as is usual with him, has given the play an elaborate setting, every scene showing the wonderful attention to detail which has made his name famous. The cast, especially selected by Mr. Belasco, includes such well known players as Marjorie Wood, Marion Barney, James Seelye, Howell Hansel, Hugh Dillman, Austin Webb, Hallett Thompson, Peter Raymond, Homer Granville, Kaiman Matas, Frank Austin and others.

"Busy Izzy" Returns Tomorrow.

George Sidney in the furiously funny 1913 version of "Busy Izzy" will be at the Auditorium tomorrow afternoon and night. This play is beyond a doubt the most popular of its kind on the road. During the many weeks of its tour last season it played to a succession of crowded houses, and requests for return dates were so many that the management is considering sending out a No. 2 company. The original company and production will be seen here at the Auditorium tomorrow. Popular prices, 25c and 50c. will prevail at the matinee.

"The Littlest Rebel."

If you think all dramas are alike, go to the Auditorium Thursday night, March 13, and see "The Littlest Rebel." It is different. It is exciting and thrilling, just as most dramas are, but it has a different appeal. It will twist your heart strings more effectively, for it depicts not the love of a northern soldier for a southern girl, but love between a little girl for her rebel daddy, who saw her mother die and their home burn, lives alone and hungry in a little cabin on a mountain side a few miles from Richmond. Her father comes on one of his haunted visits to see his child; he has been pursued and is wounded. A detail of cavaliers under command of Lieut. Col. Morrison surrounds the cabin and the scout hides in a loft. The door is battered down and the northern soldiers, instead of finding the scout, discover a little girl sitting alone at a table playing with her rag doll. With arch baby talk and adorable courage she fools the Yankees but is outwitted by the gentlemanly colonel, who discovers the hiding place of her father. Through the plea of the little girl the colonel relents and furnishes Cary with a pass as escort for the little girl through the federal lines at Richmond. Later in the day a battle ensues in which Cary saves the life of the northern colonel. They are betrayed and brought to headquarters as prisoners, Cary as a spy and a traitor, Morrison as a traitor, and sentenced to death. The littlest rebel, as Virginia is called, appears before Gen. Grant and pleads for the life of both men. So clever and sympathetic is her plea that the general becomes interested and makes a personal investigation of the case, upon which the men are pardoned. The seat sale opens Tuesday.

"Brewster's Millions."

The most interesting and successful plays produced in recent years are those which have been made from popular novels. The best exemplification of this is "Brewster's Millions," a best seller as a book, a record smasher in stage form. Book readers and theatre goers alike are familiar with George Barr McCutcheon's fantastic tale of frenzied finance. Imagine a young man trying to spend a million dollars in one year in order to get seven millions! He has a difficult task, but carries out the wishes of his uncle, who bequeathed him the money with certain stipulations. With but a few weeks remaining of the year, this young man, who is named Monte Brewster, finds himself almost ready to give up the job, but a storm help him out, and it is this storm that offers the opportunity to present a sensational stage picture and makes the play one of the best of the season. Of course the big thing in the play and that which delights and thrills the spectator more than anything else in it, is the work solely of the producer, Frederick Thompson. This is the storm scene at the end of the third act. Though naturally developed, it is really a thing apart and

a clever connection. A special meeting stage to convey the picture of the yacht leaving in the storm of the storm on the Mediterranean is employed. The motion is vivid and is heightened by the manipulation of the back scenery. The clouds drifting past, the flashing of lightning, the receding shore, the passing light-house, the roar of thunder, the excited rushing about of the ship's officers and passengers, combine in action and picture that far realism has never been equalled. The illusion of actual movement of the yacht is perfect. The seat sale opens Tuesday.

HIGH PRAISE FOR "THE WOMAN" BY C. F. RHODES

Charles F. Rhodes, manager of the Newark Ice & Cold Storage Co., in speaking of "The Woman," which is to be presented at the Auditorium tonight, was unqualified in his praise of the production, which he saw in Chicago last season. "You cannot make it too strong," said Mr. Rhodes. "I saw the play produced in the Windy City by the same company that is coming to Newark, and from a dramatic standpoint, it is the best I ever saw. Newark theatre goers are indeed fortunate in having an opportunity presented to them of seeing 'The Woman,' and it is safe to say that those who attend will be anxious on Saturday to congratulate Mr. Johnson upon having succeeded in booking the company." This commendation came unsolicited from Mr. Rhodes, who is one in Newark who believes in giving others the benefit of an experience that all have not had, especially in the matter of high class drama.

Orpheum Theatre. The vaudeville bill at the Orpheum for the last three days is a big one. The bill is of a high class nature, all the acts being head liners of the eastern time. Raymond & Temple, ragtime singers, are very clever and receive rounds of applause. The Armenian Acrobat does a fine bar act. He is the best in this work that has appeared at the Orpheum in many months. Veria & Verin, in a singing and talking act, carry away the audience with their work, and it was a hard matter for them to even get off the stage, for rounds of applause followed each number. Hays, Boyd & Hays, in a good comedy sketch, surely have the goods, and they know just how to put it on. From the time the curtain rises until it falls the audience is convulsed with laughter. You can't go wrong in visiting the Orpheum. The last half is the best ever and capacity business will surely finish the week. The Country Store will be on the bill tonight and the management will give some big prizes, 25 in all. Don't miss it.

Comings to the Orpheum Monday.

The all-girl bill—not a man in the entire performance. All ladies and some of them are favorites in Newark. Songs, dances, musical numbers, special scenery—all go to make up the big bill. Don't forget the all-girls show.

FIRST THINGS

SOUTH AMERICAN PRESS. The first printing press in South America reached Rio de Janeiro 105 years ago today, on the same vessel with the Portuguese royal family, and was used to print the pioneer newspaper of the southern continent. The first really great daily newspaper of South America was the Buenos Ayres La Prensa, founded in 1869 by the late Dr. Jose Paz, and now one of the most influential and prosperous of the world's daily journals. La Prensa has a circulation of about 175,000, sells for ten cents a copy, and pays its owner a profit of over a million dollars a year. It has a formidable rival in La Argentina. Buenos Ayres has numerous other daily papers, including two in English. Brazil has two great papers in the Journal de Commercio and the Journal de Brazil, but their circulation is small compared with La Prensa and La Argentina. El Mercurio, published in Santiago and Valparaiso, is Chile's great paper. Lima and Montevideo have excellent daily papers. Even the greatest of southern American papers pay scant attention to adequate heads and content make-up. The head-lines never tell the story, and the location of any class of news is always shrouded in mystery.

JUDGE BARHORST DOES HIS DUTY TO RHEUMATIC SUFFERERS

If you suffer from Rheumatism and don't read this advice, then the terrible disease must have robbed you of your power to be fair to yourself. Read it: "I, John Barhorst, Justice of the Peace of McLean township, Ft. Loraine, Ohio, do certify that after treatment by three doctors without result, I have been cured of a very bad case of RHEUMATISM by using two bottles of RHEUMA. It is now two years since I used this remedy, and I am still as well as ever. Previous to using RHEUMA I was a cripple, walking with crutches, and I feel it my duty to let other sufferers know what it will do. The result seems almost miraculous to me. I have advised RHEUMA to at least a dozen persons, and each one speaks as highly of it as I. I will answer any one suffering from the disease if a two cent stamp is enclosed."—May 11, 1912. You can secure a bottle of RHEUMA for only 50 cents at Evans' Drug Store and they say if not as advertised money back. It's just as good for gout, Arthritis, Lumbago and Sciatica.

John Zubly, the American Patriot Who Turned Traitor

A REPUBLIC is little better than a government of devils. So declared John A. Zubly, a man on whom our country had relied, and whom the Revolutionists had trusted. He JOHN ZUBLY was a patriot who suddenly turned traitor at a time when America and liberty needed every true man's aid. The colonies had long groaned under British oppression. When they rose against England, in 1776, it was with an idea of breaking loose from the mother country than of showing resentment by force of arms where argument and appeal had failed. They simply wished to bring England to her senses and to obtain relief from injustice. Even George Washington in later years confessed: "The idea of independence was at first abhorrent to me."

But soon he and all the rest of the patriots realized that the time for half-way measures had passed. There must be either dumb submission or open defiance. And, should they choose defiance, they must free the colonies wholly from the British yoke and declare our country free and independent. It was to discuss this that the continental congress met at Philadelphia in 1776. We are apt to think that congress was a collection of ardent patriots, panting for liberty at any price. This was not wholly true. While the majority of the delegates were firm in their resolve to declare for independence, several of them threatened to balk at so rash a step. Nor can they be severely blamed for hesitating. They were men of property and importance. They had more to lose than had most Americans. Should the Revolution fail their goods would doubtless be seized by the British government and they themselves would be hanged. As Benjamin Franklin said, in grim jest: "We must hang together or we'll hang separately."

But, to their eternal credit, these wary delegates at last yielded to the popular voice. The Declaration of Independence was drawn up, and on July 4, 1776, was adopted (although it was not signed until the next month). The grave step was taken. The congressmen stood committed. The had "crossed the Rubicon" and were ready to take the consequences. There was one exception to this band of patriots. He was John Joachim Zubly, a Swiss, who had emigrated to America in early life and had settled in Georgia. Zubly was not only prominent as a scholar and a statesman, but was a preacher as well. He had shown great indignation at the colonists' wrongs and had both written and spoken in protest against tyranny.

So patriotic was he that Georgia chose him as one of its five delegates to congress in 1775. There he worked hard for the people's cause and even drew up a petition to King George III, "upon the present unhappy situation of affairs." Altogether, he was looked upon as an ardent patriot. Indeed, it is hard to understand the sudden and terrible change in the man. As soon as Zubly found congress was determined to adopt the Declaration, he fought the proposition most bitterly and utterly refused any part in it. He denounced the idea of a republic and did everything in his power to stem the tide of opinion. Had this been all he did no great shame need to have been attached to him. But he was not content with refusing to vote for the Declaration. He actually entered into secret correspondence with the enemy, betraying to the British the patriots' private plans and giving warning that the Declaration was about to be adopted. What further harm he might have done the cause of liberty cannot be guessed, for a fellow congressman (Samuel Chase of Maryland) found reason to suspect him. A treasonable letter from Zubly was intercepted. Chase exposed the man's whole black treachery to congress. Zubly fled in hot haste from Philadelphia to escape punishment. He went at once to Georgia. There, utterly casting away his cloak of patriotism, he sided openly with America's foes. For this he was banished from Georgia and half of his property was declared forfeit. He rushed to the British for protection. After a few years of misery and disgrace he died, in 1781, with the Revolutionary war was still at its height.

MISS FLANAGAN OF NEWARK WRITES OF INAUGURATION

(By Miss Anna Flanagan.)
The nation acclaimed Woodrow Wilson its President on March 4, 1913, in Washington, D. C., amid the most brilliant ceremonies in the history of the nation.

Under the dome of the nation's capitol in the presence of a countless throng of his fellow citizens, the new President raised his hand toward a prophetic sun that burst through a dissolving cloud and pronounced the day one of dedications not of triumph, and shouted a summons to all "patriotic, honest, forward-looking men" to aid him, extending the promise that he would not fail them in the guidance of their government.

Immediately after the oath of office was administered and opening address completed, former President Taft was among the first to congratulate the new President, "Wishing him a successful administration and the carrying out of his aims." W. J. Bryan was also among the first to greet him. This was a political picture beyond imagining. Taft the standard-bearer of a party vanquished after sixteen years of power. Bryan, a persistent plodder of Democracy thrice defeated now accepting a commission from a new chief, Wilson, the man of the hour, mustering as he expressed it not the "forces of the party but the forces of humanity."

The military and civic parade that followed now was more than five hours in passing one point. Long after darkness had fallen the marching thousands had not doffed their colors to the new President.

The inaugural parade, said to be the most spectacular pageant in the history of Presidents, must have been a delight to the new chief executive. In the reviewing stand with the President was the Vice President, his wife, the family of the President, the President's aide, all of whom took a deep interest in all that transpired before them. The Princeton students received more than passing notice, as also the organizations from the state of Georgia of which state Mrs. Wilson is a native.

Fifteen governors of as many states were in line, recipients of enthusiastic cheering as recognized by state people. Six thousand college men, the largest number that ever participated in an inaugural parade, marched in honor of Woodrow Wilson, the former president of an American university. The army and navy cadets made a

fine showing, and numbering in the thousands. Cadets from the Carlisle Indian school were the subjects of remark in contrast with the remnant of their ancestors, who rode in full feather and war paint.

The diminishing numbers of the veterans of the North and South in blue and gray, rejoicing now as brothers, not as adversaries, received a hearty welcome.

Tammany Hall sent 1,500 men, headed by two bands, to welcome the first Democratic President in 20 years. Other states represented by clubs, were Ohio, New Jersey, San Francisco, Kentucky, Pennsylvania, Virginia, Indiana.

Thirteen states sent troops, all of which made a splendid showing. Mounted troops were handsome, accompanied in many cases by bands played by mounted musicians. Conspicuous among these was the Essex cavalry of New Jersey, who acted as a guard to the President, and the Culver cavalry, who acted as an escort to the vice president.

All the local organizations of the city of Washington were well represented in the parade, while the great military pageant marched to the inspiring strains of inspiring music from a hundred or more bands.

None attracted more attention than the military band of St. Mary's Industrial School of Baltimore, Md., composed of fifty or more small boys. These were accorded a royal reception all along the line of march.

As this was the first inauguration I had ever seen, and it a Democratic one, as I stood and gazed at the 50,000 marchers, and beheld the sublime grandeur of the decorations of the National Capital, I was happy that I was the citizen of such a grand country.

Another fact that impressed me was the love and respect shown the outgoing President, Mr. Taft. I had the pleasure last Sunday of being present at the farewell reception tendered him by the faculty and students of Georgetown University, a Roman Catholic Jesuit College. This reception had been tendered each President from Washington to Taft. In the line only one President did not attend the reception. Mr. Taft said in his remarks, "He did not wish to be the second exception" and right royally he was received.

President Taft's parting on all occasions seemed to be marked by

sadness. He is a game loser. He seemed to enjoy the inauguration as much as if it were his own. The famous Taft smile was never absent for a moment, even in that breathless moment when he passed from the Presidency to the status of a distinguished citizen alone.

TOES BROKEN WHEN A RAIL DROPS ON FOOT

C. H. Trego, 26, an employee of the Pennsylvania Railroad Company, suffered a fracture of several toes Thursday afternoon while working with a gang in the Pennsylvania yards at O'Bannon avenue. A heavy rail dropped on his foot. Bazler & Bradley's ambulance was called and the man was removed to the office of Dr. Davis, where the injury was dressed. Later he was removed in the same ambulance to the Pennsylvania station and taken to his home at Frazersburg, where he lives with his wife and family.

AMBITION PILLS For Nervous People.

Everyone can be helped with the famous WENDEL'S AMBITION PILLS, the great nerve tonic that will put vigor, vim and vitality into nervous, tired out, all in, despondent people in a few days.

Anyone can buy a box for only 50 cents and Evans' Drug Store is authorized by the maker to refund the purchase price if anyone is dissatisfied.

Thousands praise them for general debility, nervous prostration, mental depression and unstrung nerves caused by over-indulgence in alcohol, tobacco or excesses of any kind. As a brain food or any affliction of the nervous system, WENDEL'S AMBITION PILLS are unsurpassed, while for hysteria, trembling and neuralgia they are simply splendid.

Prof. Butler, 41 Today, Hopes to Discover Temple of Zeus

Prof. Howard Crosby Butler, one of America's foremost archaeologists, will celebrate his forty-first birthday today in Asia Minor, where he is at the head of a Princeton expedition engaged in important excavations at Sardis. Attempts to discover the Temple of Zeus are now being made by the party, according to the last reports from Prof. Butler, who is carrying on the work with the permission of the Turkish government. The scientists also hope to unearth the palace of Croesus, the Lydian monarch who flourished in the sixth century B. C., and whose name has stood through all the ages of a synonym for tremendous wealth. As rich as Croesus has for centuries been a much used comparison, although as a matter of fact it is likely that the king of Lydia's fortune was small when compared with the accumulations of the Rockefeller and the Rothschilds.

Sardis, the capital of Croesus, was taken by Cyrus of Persia in 548 B. C. and burned by the Greeks in 498. On the ruins of the palace Alexander the Great built the magnificent temple of Zeus. Not far away, and in the same sacred enclosure, the temple of Artemis was founded, and this has already been completely uncovered by the Princeton investigators. An ancient coin, now in the British Museum, shows the temples of Artemis and Zeus side by side, so the hopes of the scientists for discovering the latter

edifice are apparent. The city of Sardis was founded by the Romans, and was a flourishing metropolis under their rule. In the seventh century it was taken by the Persians and utterly destroyed, and that is left to mark the site of the once proud metropolis. In a remote village, named Sart, at the time of Tamerlane's orgy of destruction, however, the Greek temple had already been covered with the debris of ages, and are only now being revealed by American archaeologists.

The discoveries also made by the Princeton scientists include, besides the temple of Artemis, an early Christian church, with a fine altar in a perfect state of preservation. Sardis was one of the great churches of Asia to which the apostle John was commanded to address the epistles contained in the book of the third chapters of his Revelations. The excavators have also found a second Rosetta stone inscribed with characters of an unknown language, which has turned out to be Lydian. This find aroused the greatest interest among English archaeologists.

Prof. Butler and his associates employ about 400 natives in their work. At first the people of Sart were suspicious of the invaders, and for months the party carried their own food, fearing that the task was turned over to them. Finally they might put pulverized camel's hair in the food. This, says Prof. Butler, is invariably fatal to a most painful illness, and the cause of death cannot be discovered by a post-mortem. This attitude of the natives has now changed to one of friendship, and Prof. Butler has become a physician, counselor and leader to the people of the vicinity. The workmen are paid forty or fifty cents a day, whereas the local scale of wages is only four or five cents a day. At last reports, the excavations were from fifteen to fifty feet in depth, 100 feet in breadth and 600 feet in length.

Prof. Howard Crosby Butler, head of the expedition, was born near New York City forty-one years ago today, and was educated at Princeton, Rome and Athens. He organized and conducted his first Syrian expedition in 1899, returning in 1904, 1909, 1911, and again this year.

PAINFUL CORNS REMOVED BY NEW PAINLESS REMEDY

You're a chump to suffer a day longer—everyone of those stinging corns can be peacefully and quickly removed by painting on Putnam's Corn Extractor. It's really a marvel how Putnam's Corn Extractor takes out the pain, how it draws out the soreness, how it lifts the corn right out by the roots. It is a neat clean job that Putnam's Extractor does—no remedy so quick and sure as a 25c bottle of Putnam's Extractor—sold and recommended by druggists and W. A. E. man.

ON SECOND THOUGHT.

In Bengal, to catch a fish is considered a lucky omen. Elph. Wiley says in most of the waters he has fished in it would be considered a miracle.

Religious sentiment is so strong in a country neighborhood that no one is allowed to hunt on Sunday. But a few of the atheists and unbelievers are permitted to fish.

The failure of a number of publications that catered to that sort of clientele indicates there is no demand in this country for a men's Ladies' Home Journal.

A Bit of Verse for Your Birthday.
One rose, but one, by those fair fingers culled,
Were worth a hundred kisses pressed on lips
Less exquisite than thine.

Double Acrostic.
My primals spell what many women are; my finals what every woman is.

Cross words: 1, something that grows; 2, a form of the first cross word; 3, a kind of fish; 4, what everyone who is what my finals spell will do; 5, to tell one a person; 6, what a dog becomes when a tin can is tied to his tail.

A Favorite Poem.
Come cuddle your head on my shoulder, dear,
Your head like the golden-rod,
And we will go sailing away from here

To the beautiful land of Nod,
Away from life's hurry and flurry
And worry,
Away from earth's shadows and gloom,
To a world of fair weather we'll float off together.

Where roses are always in bloom,
Just shut up your eyes and fold your hands—
Your hands like the leaves of a rose;
And we will go sailing to those fair lands

That never an atlas shows.
On the North and the West they are bounded by rest,
On the South and East by dreams.
'Tis the country ideal, where nothing is real.

But everything only seems.
Just drop down the curtain of your dear eyes.

Those eyes of a bright blue-bell,
And we will sail out under starry skies.

To the land where the fairies dwell,
Down the river of sleep our barge shall sweep.

Where no man hath seen, but where all have been,
And there we will pause awhile.

I will croon you a song as we float along
To that shore that is blessed of God.

Then hoi! for that fair land! We're off for that rare land!
That beautiful land of Nod.

Consumption

Anyone interested in the treatment of Consumption should get one of the booklets telling of recoveries by the use of Eckman's Alternative, Coughs, Spasmodic Colds and Whooping Coughs may be the beginning of more serious troubles—Eckman's Alternative is the effective remedy. Read Mr. Kanaly's statement.

Saratoga, N. Y.
Gentlemen: For five or six years I was troubled with cough and expectoration. I also had a high fever. My case was declared Consumption by my physician. I was given Cod Liver Oil, Creosote and other medicines, all without benefit.

At Christmas time, 1909, I was not expected to live. Calling Dr. R. H. McCarty, he advised the use of Eckman's Alternative, which I took with excellent results and was entirely cured. I have gained in weight, I go out in all weathers and have had no cough or cold what-so-ever. I give these facts to encourage others to use Eckman's Alternative.

(Signed Affidavit) JAS. W. KANALY.
Eckman's Alternative is effective in Bronchitis, Asthma, Hay Fever, Throat and Lung Troubles, and in upbuilding the system. Does not contain poisons, opiates or habit-forming drugs. Ask for booklet telling of recoveries, and write to Eckman Laboratory, Philadelphia, Pa., for more evidence. For sale by all leading druggists in Newark.

NEWARK COLLIE MAKES GOOD AT DUQUESNE SHOW

"My Lady Fawnette," a 13-months old collie entered at the Duquesne Kennel Show at Pittsburgh, won first, second and third prizes in three classes when the awards were made yesterday in several of the classes. This is the dog's first show and she surpassed the expectations of her owner, P. W. Faust, local Adams Express Company agent, as well as those of her trainer.

The Pittsburgh show is the hottest of collie breeders and the competition was keen. Some mighty fine dogs being on exhibition. The Newark dog took first in the novice class, second in the limited class and third in the American-bred class for collies. In the latter class she competed against dogs of all ages and breeds and the awarding of the third prize is regarded as a very high honor.

"My Lady Fawnette" was raised by Mr. Faust in Newark and is regarded by collie breeders as one of the finest dogs in the exhibition class today. She was whelped in January, 1913, being the only puppy in the litter. Mr. Faust values the animal at \$200.

Arazi West, 306 East Main street, grocer, has the coach dog, "King Daniel," on exhibition at the Pittsburgh show, but the awards have not been made in this class.

Fine Remedy for A Backward Child

Continue It for Only a Brief Period
and the Good Results Will
Surprise You.

A low state of the general health is now the accepted cause of backwardness in children. So in the case of a backward child it is best to look to the child's health. It will usually be found that the main trouble is in the food, in lack of assimilation and digestion. Hence care should be taken in the kind of food given to the child. This, with plenty of air and exercise, should bring about a change for the better.

HARRY BRUNTZ

Watch the condition of the bowels, to note whether the waste is being passed off or not, or whether it is being passed too freely. If either condition prevails, give a small dose of that gentlest of all laxative-tonics, Dr. Caldwell's Syrup Pepsin. Thousands of mothers will testify to the wonders it has wrought in the lives of their own children, and for that reason legions of families like those of Mrs. J. E. Bruntz, 1903 9th Ave., Nashville, Tenn., are never without it in the house. Mrs. Bruntz writes: "Harry has always been constipated until I gave him Dr. Caldwell's Syrup Pepsin. I am certain going to keep this medicine in the house in future for I know it to be good." It is pleasant to the taste and so perfectly safe that it is given to infants, and yet equally effective for grown people. All druggists sell it and the price is only fifty cents and one dollar a bottle, the latter for families who need it regularly.

Syrup Pepsin has no equal as a cure for constipation, indigestion, biliousness, headaches, sour stomach, gas on the stomach, liver trouble and kindred complaints. It has so many advantages that those who once use it forever after discard cathartics, salts, pills and other coarse remedies, for they are seldom advisable and should never be given to children. If no member of your family has ever used Syrup Pepsin and you would like to make a personal trial of it before buying it in the regular way of a druggist, send your address—a postal will do—to Dr. W. B. Caldwell, 417 Washington St., Monticello, Ill., and a free sample bottle will be mailed you.

INJUNCTION GRANTED TO J. H. SWISHER

TEMPORARY RESTRAINING ORDER AGAINST HARRY SWISHER USING FIRM NAME.

Newark Attorneys Argue Case in Supreme Court—Suit to Determine Guardianship.

Judge Thomas B. Fulton Friday afternoon issued a temporary injunction against Harry Swisher, Swisher Brothers, a partnership doing business in Ohio, and the Swisher Brothers Cigar Company, corporation, restraining the defendants from using the name "Swisher Brothers" at Newark, O., in any business similar to that carried on by the plaintiffs, John H. Swisher & Son.

The injunction was issued upon the prayer of a petition filed by J. M. Swartz, Fitzgibbon, Montgomery & Black, attorneys for John H. Swisher & Son. The petition alleges that for more than twenty years prior to Feb. 3, 1913, John H. and Harry Swisher were in the cigar business and had extended said business throughout the United States, building up a large and profitable business under the name of Swisher Brothers.

That on Feb. 3, 1913, John H. Swisher bought the entire interest of Harry Swisher, including real estate, personal property, fixtures, machinery, tobacco, labels, revenue stamps, and all notes and credits of said firm; that the good will of said business was at this time purchased by said John H. Swisher; that plaintiff paid said Harry Swisher a large sum of money.

That on February 20, said Harry Swisher pretended to form a partnership under the name of Swisher Brothers, but that such a partnership was not in fact organized, but was a scheme to obtain the use of the name, and that shortly after this said Harry Swisher organized a corporation under the name of The Swisher Brothers Cigar Company and is attempting to conduct the business under this name in Newark, and that defendant is attempting by this means to lead all persons formerly doing business with the old firm to believe that said corporation is a continuation of this old firm, and that if he is permitted to carry on the business as attempted, it will seriously interfere with plaintiff's business, cause confusion and irreparable damage.

To End Guardianship.

The case of the determination of the guardianship of Adam Holler has been on trial all day Friday before Judge Robbins Hunter, and will probably take the greater part of Saturday to get in the testimony of about 30 witnesses, among whom is Dr. E. J. Emerick, superintendent of the state institution for feeble-minded at Columbus.

The case is brought by Holler, who is supported by some of his relatives, while others resist the termination of the guardianship. J. Willis Fulton at present is guardian of Holler, alleged to be an imbecile.

In Court of Appeals.

The case of the City of Newark vs. Harriet B. Crane and James W. Burnette et al. was assigned for trial on Thursday, the second week of the session of the court of appeals. This is the suit involving the title to the old graveyard property at Sixth and Main streets, this city.

Roy Cole vs. State of Ohio, an error proceeding from the court of common pleas, counsel for plaintiff in error stated that it was desired that the case should be submitted to three judges.

Then the case was passed until the last week of the present term, when it is expected that three judges will be here.

Isaac Jones vs. Wm. P. Myers, assigned for trial on Wednesday, second week; also Isaac Jones vs. Jas. T. Haynes.

This suit involves the title to certain real estate at Buckeye Lake.

The court announced no decisions in cases submitted during the present week.

Dillon's Petition.

Francis Dillon, by her attorneys, Smith & Smith, has filed a petition in common pleas court for divorce from her husband, Howard Dillon, alleging failure to provide and infidelity. The parties were married Oct. 6, 1910, and there are no children.

A Great Pre-Easter Economy Event In Clothing, Furnishing and Hats for Men

Winter weather that did not live up to its reputation brought disaster to many a maker of Men's Clothing and to recoup the losses caused by a big drop in sales, their efforts redoubled to double up sales for Spring, retailers fought shy of giving orders. Stocks accumulated, prices wavered and finally broke wide open again. Hence the economies we can offer now.

THE REASONS ARE GOOD—YOU'LL AGREE TO THAT. To round out the event and to create greater interest among men who have never traded here, we have widened its helpfulness through the co-operation of leading makers of Men's Furnishings, Shirts, Hats, Neckwear, Hose, Gloves and so on down the line. This is our foreword to shrewd buyers—our announcement of pre-Easter economies that never have been and we believe never will be duplicated.

SUCCESSOR OF W. F. ALWARD IS H. L. MONTGOMERY

BOARD OF TRADE DIRECTORS
ADOPT APPROPRIATE RESOLUTIONS.

The Matter of a Secondary Force Main to Water Works Approved—Membership Meeting March 25.

At a meeting of the directors of the Newark Board of Trade, held in the office of the First National Bank, on Thursday night, there were several matters of importance discussed and some business transacted.

The question of a successor to the directorate to the late W. F. Alward

H. L. MONTGOMERY

was taken up, and Mr. H. L. Montgomery was elected to the place.

The following resolution was also unanimously adopted:

The directors of the Newark Board of Trade at their regular meeting on Thursday evening, passed the following resolutions, respecting the death of Willis F. Alward, who was one of the directors of said board:

Whereas, it has pleased Almighty God in His infinite wisdom to take from us one of our most valued and esteemed members, we take this opportunity of paying our last tribute to his worth and memory and extending our sympathy and condolence to his wife and family.

No words can express the sorrow we feel at his untimely death, cut down in the very prime of his young manhood, just a few months after his marriage, his relation to this board, and his unity with the church.

In his death his wife has lost a devoted and affectionate husband, his mother a dutiful son, his church a noble Christian character; his firm a conscientious, energetic business man; his associates a kind and loyal friend; this board one of its most promising members, and the city and state one of its cleanest and most valuable citizens.

In short, he was an ideal husband, son, Christian, business man and citizen, whose worth to his family, firm, church and this city and this board, had he been permitted to live, can never be estimated.

Resolved, That the tender sympathy of this board be extended to his wife and family in this hour of their bereavement and sorrow, and may the honor of being the wife and mother of such a noble husband and son help them to bear their great loss.

Resolved, That a copy of these resolutions be printed in both papers and a copy be sent to his wife and family.

A communication from the local Flint Glass Workers' Union asked that a committee from the Board of Trade meet a committee from the union in regard to the national convention to be held in Newark in July, 1914, and the president and secretary were authorized to meet the glassworkers.

It was decided to hold a March

Wash your dishes
with

GOLD DUST

Ordinary dish-water only cleans the surface. Put a dash of Gold Dust into the water and it will go to the bottom of things, drive out every bit of dirt, every germ, every hidden particle. Gold Dust cleanses as well as cleans.

We promise you this if you use Gold Dust: Your dishes will be sweeter and cleaner than ever before and you will save at least half the time ordinarily consumed in washing them.

Gold Dust does better work than soap or any other dish-washing product—and saves half the time.

Gold Dust is sold in 5c size and large packages. The large package means greater economy.

"Let the GOLD DUST TWINS do your work."

membership meeting on the 25th of March, at Plymouth Congregational church. At the meeting the question of federal aid in building good roads will be discussed, as well as the taxation amendment in regard to manufacturing plants, which was laid on the table at the March membership meeting.

A matter also came up relating to better fire protection, and Service Director McCarthy had communicated to the board a proposal to the city council to have a second fire station to be located near the distribution system, and had asked authority to make this needed improvement, which is now under advisement by this body.

The following was introduced and unanimously adopted in this connection:

Whereas, A secondary force main from the pump station to the distribution system would reduce the danger of a considerable water supply, and the rates of insurance, which are now under advisement by this body, as has taken place already, be it

Resolved, That the Board of Trade approve the recommendation of Service Director McCarthy, and further request that the city council take the necessary steps to improve our water system, providing this protection.

HAS ACCOMPLISHED WONDERS IN HIS CASE SAYS CARTER

Thinks Vin Hepatica is By Far the Best Medicine on the Market.

Every day more and more people are searing themselves into unnecessary trips to the operating table. In many cases they simply have become overstrained by the tiresome symptoms of the catarrhal conditions and have magnified their troubles until they firmly believe that only the knife can save them. Vin Hepatica, the new catarrh remedy and tissue builder, has been the means of saving very many the unnecessary expense and trouble of surgical operations.

Mr. C. G. Carter, Worthington, O., made the following statement: "One bottle of Vin Hepatica has accomplished wonders in my case. It has relieved me of backache, restlessness at night, dizziness, depression of spirits and built my system up to a strong, healthy condition. I think it by far the best medicine on the market."

If Mr. Carter had not taken Vin Hepatica he might by this time have worried himself into severe organic disease. There are many symptoms of this condition; anyone of the following may denote the presence of catarrh: Bad breath, nervousness, pain in the chest, susceptibility to colds, constant coughing and spitting of mucus, cold, clammy feet and hands, pains in the back and joints, or in fact any of those unpleasant signs of a half sick nature.

Vin Hepatica can be procured in Newark at T. J. Evans' Drug Store, who has the exclusive agency for this great tissue builder in this locality.

DR. FRIEDMANN

(Continued from Page One.) of nearly all his patients were perfect, and that the real reason for their rejection was that they were either in the medium or worst stages of the disease.

"He should be driven out of the country," said Dr. Broder. "He proved to me that his serum is for well persons who think they are sick, or sick persons who are already well on the road to recovery."

All of those present at the clinic were astonished at the lax methods employed by Dr. Friedmann in administering the serum. The hypodermic syringe which he intended to use was declared unfit, and he had to be cautioned about sterilizing his hands.

Dr. Max Landesman of the People's hospital said:

"Dr. Friedmann was not in condition today for a fair demonstration. He must have a full, fair trial."

Dr. Strach said: "He has nothing of any value. From his actions I should say that he has little faith in the serum himself."

Dr. Meyer Wolf: "I do not know what to think. His idea perhaps is good, and he may be all right. I think he should have a good chance."

Dr. Morris Greenbaum, president of the People's hospital, discussing with Dr. Friedmann's demonstration, said that the opinion of physicians who were present was that criticism or praise of the culture and of Dr. Friedmann's methods should be withheld until the results of the treatment are known. He said that a Berlin physician during his demonstration appeared nervous, excited and irritated. He used an ordinary hypodermic needle, and made the inoculation in the ordinary manner familiar to physicians.

The government is prepared to designate a few more officers of the United States public health service. Dr. Friedmann announced last night to associate themselves with him in a study of his treatment. The German physician made public a letter to this effect, written by Franklin MacVane the day before he stepped out of office as secretary of the treasury.
